

Slinden Services Ltd

Cast Iron Welding and Engineering

' VCC Midlands' Visit!

Slinden Services were approached by the VCC (Veteran Car Club) to discuss the possibility of their members visiting our premises during their closing event of the season, to see our services and procedures first hand, covering the 'Fusion Welding' and 'Metal Stitching' of CAST IRON.

This was a great

privilege for our company and on a sunny Sunday morning the streets of Measham were awoken by a procession of wonderfully restored and preserved veteran cars (some of which we have repaired). Our staff enjoyed seeing the 'whole car' rather than just the engine castings that we normally see on a daily basis, and were delighted to be taken for a whizz around the village!

The members enjoyed their visit and were treated to tea and cup cakes, golfing umbrellas and caps.

Mr Martin Coles personally thanked our Directors and staff - in the VCC Gazette, for making their members extremely welcome, showing them our facilities –and a special thanks for the delicious cup cakes!!!

*Breathing new life into
damaged cast iron components*
